**Subject:** Thank you

Hello Mat and Margaret,

I hope you are both well and enjoying getting out cycling, although this wind doesn't make for easy riding does it!

Thank you so much for your generous donation of £450 to the Hospice, your donation really does make a huge difference. As a charity the services that we deliver to the local community have never been more important than during this current COVID-19 outbreak.

As you know, at Heart of Kent Hospice we care for people with a terminal illness in our local community. Whether at home, or in our Aylesford based Hospice, we support patients, their families and carers to come to terms with their diagnosis, and are privileged to support our patients to live in comfort, with independence and dignity through their illness and to the end of their lives.

The Hospice is adapting this outstanding care to ensure that the needs of over 880 existing patients as well as new patients, who are being referred daily, can continue. These adaptations are vital in ensuring that terminally ill patients and their loved ones, have both the clinical and emotional support they need. We value each and every pound that is donated to us and promise to put it to the best possible use.

Thank you once again for your generous and continuing support.

Stay safe

Emma
